

A classic arc.

Looking backwards, I can see that my thesis project followed the classic narrative arc: triumph only after a whole pile of struggle.

The last section showed you the clean, polished exterior of the project. I could have focused my thesis documentation on this and written a smart essay on digital narrative. Instead, I'm going to show you the messy interior. I love the outcome of this project, but the best thing I did this year was learn how to work.
